Necky Eliza Kayak

THE ELIZA SERIES is designed to fit and perform for smaller paddlers (up to 150 lbs), these boats are ergonomically designed around a woman's hip and leg physiology, and overall body proportion. The low aft deck offers optimum room for sculling, rolling, surf ability, and bracing. These are not just low volume versions of a popular hull! They are designed from the start with an exceptional balance of glide, maneuverability and reduced drag from frictional resistance and wind. So to sum it up: the Eliza is quintessentially the best kayak on the market for women to paddle efficiently, with less effort, less resistance, and less energy. Finally… a kayak that puts women at the front of the pack!

Design Notes:

- Ergonomically designed cockpit geared for a small to medium female frame
- The Eliza cockpit is wide at the hips but shorter in length, allowing for easier spray deck installation and removal
- The 15' length hull provides optimum efficiency at cruising speed
- Shallow V hull is very reactive to slight edging, yet provides an excellent balance between tracking and maneuverability
- Low windage and water shedding fore deck combined with a low rear deck allow a small to medium torso to have unrestricted, spirited paddling
